BE YOURSELF,

Together

The UCF

Be You
Storytelling Project

Enrique del Barco, Ph.D.

Professor, Physics Department

“The idea behind service learning is that when you teach, you learn.”

Come hear about Dr. del Barco’s commitment to include the most diverse population of students in STEM fields and in scientific research.

Dr. del Barco’s past projects include a no-cost physics summer camp for high-school students, a new service-learning Nanoscience Minor, and a collaborative Physical Science capstone research course within the Physics and Chemistry departments of the Florida Consortium of Metropolitan Universities (UCF-USF-FIU). Del Barco has received several recognitions and awards for his educational activities, including the UCF Excellence in Undergraduate Teaching award, two TIPs and two Scholarship of Teaching and Learning awards.
